

Canon Full Frame Sensor - 36mm x 24mm

Full Frame vs Crop Sensor and Crop Factor

Canon Crop Sensor - 22.3mm x 14.9mm

Crop Factor of 1.6

So 100mm lens would have same field of view
as 160mm lens on a full frame camera.

Canon Full Frame Sensor - 36mm x 24mm

Full Frame vs Crop Sensor and Crop Factor

Canon Full Frame Sensor

Full Frame vs Crop Sensor and Crop Factor

Canon Crop Sensor with Crop Factor of 1.6
(Equivalent of 160mm lens on a full frame camera)
